

FOIL REMOVER /ADAPTER

SOLVENTS AND DEGREASERS

- **Time-saving**
- **No subsurface damage**
- **Ideal speed: 2000 à 4000 rounds per minute**
- **Pleasant odour**

PRODUCT DESCRIPTION :

Manufactured from natural rubber, available in different models and sizes. Ideal speed: 2000 à 4000 rounds per minute. So the turntable will be used optimally.

APPLICATIONS :

To use on a lathe so as to remove glue residues, stickers or double-side adhesive without damaging the surface.

ADAPTER:

Adapter for: Foil Remover. Part for the Foil Remover.
Article number: **2605**.

USER MANUAL :

Use the foil remover on a cordless drill. Place the adapter on the drive and then into the drill. Take care of a good speed, so that the disc does not become too hot.
