

# PROFI REINIGER CONCENTRATE

Universal high alkaline cleaning concentrate

- ✓ Does not affect the surface
- ✓ Complete removal of contamination
- ✓ Non-flammable/non-toxic
- ✓ Completely biodegradable

## PRODUCT DESCRIPTION:

**PROFI REINIGER CONCENTRATE** is a concentrate of water-soluble solvents and synthetic cleaning appliances that removes structural contamination of dirty, greasy deposits, gummy residues and breaks down stubborn grease stains without damaging the surface of the material itself. The dirt will be detached and hereinafter referred to a emulsified substance, so that it can be completely removed by wiping or rinsing. It is non-flammable, non-toxic and poses no problem for the health of humans or animals. Contains a powerful anti-corrosion additive and thereby reduces the danger of corrosion of steel surfaces, peculiar to other water-soluble cleaning agents. Is completely biodegradable and does not contribute to water pollution.

## APPLICATIONS:

Profi Reiniger Concentrate is suitable for cleaning the usual car preparation, cleaning, household, office, tools, machinery, trucks, subways, buses, construction equipment, trailers, campers, siding, vinyl, ceramic tile, etc.

## INSTRUCTIONS:

Before use, read and follow the instructions on the label. Profi Reiniger Concentrate diluted with water in the ratio of 1:10-1:20 for atomizer for manual use, 1:100 to 1:200 for high pressure equipment, and diluted 1:200 to 1:250 for car wash with brushes, partly depending on the application. The diluted product according to whether the surface to be cleaned, depending on the degree of pollution let soak, then rinse with water. Rub for stubborn dirt with a brush.

## SPECIFICATIONS:

A stabilized blend of organic degradable surfactants and penetrants with oxygenated solvents and modified alkalis. No free caustics.
