## SECTION 4: First aid measures

### 4.1. Description of first aid measures

First-aid measures general	: When in doubt or if symptoms are observed, get medical advice. If possible show him this sheet. Failing this, show him the packaging or label.
First-aid measures after inhalation	: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. Give oxygen or artificial respiration if necessary. Call a physician immediately.
First-aid measures after skin contact	: Remove contaminated clothing and shoes. Wash immediately with plenty of soap and water. or shower. Use cold water. Rinse with plenty of water. Do not remove clothing (since it may stick to the skin). Consult a physician after significant exposure. Contact with the product may cause cold burns or frostbite. When blistering on the skin, do not puncture it, this increases the risk of infection.
First-aid measures after eye contact	: Flush with lukewarm water for 15 minutes. Rinse immediately and thoroughly, pulling the eyelids well away from the eye (15 minutes minimum). Remove contact lenses, if present and easy to do. Continue rinsing. Do not allow the affected person to rub their eyes or close their eyes. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. If possible show this sheet, if not available show packaging or label.
First-aid measures after ingestion	: If swallowed, seek medical advice immediately and show this container or label.
