

# RESIDUE CLEANER

SOLVENTS AND DEGREASERS

- Works quickly and efficiently
- Restores the motor output
- Safe for catalytic converters
- Removes glue, coal, sulfur, resin very quickly

## PRODUCT DESCRIPTION :

Residue cleaner is a strong but safe cleaner for manual use. By its composition of high quality components, this powerful cleaner is suitable for the removal of the most common oxidation and contaminants on components. Preventive cleaning of the EGR valve prevents emergency operation.

## APPLICATIONS :

The residue cleaner can be used for cleaning:

- Inlet manifold
- Polluted air slides
- Inject
- Throttle bodies
- Air valves
- Turbo-components,
- Air mass meters
- Carburettor, etc.

Suitable for polluted parts of both diesel and petrol engines. It frees EGR valves and prevents that they stuck.

## INSTRUCTIONS :

To be used at room temperature.

Shake before use.

Spraying on the surface / object to be cleaned.

In some cases, the product needs time to do its job.

If necessary, wipe or brush.

Let the product evaporate or dry.

**SPECIFICATIONS :**

<b>Basic:</b>	Mixture of aromatic, aliphatic hydrocarbons, ketones and alcohols.
<b>Propellant:</b>	Propane
<b>Appearance:</b>	clear, colourless
<b>Pressure (20 ° C):</b>	5 Bar
<b>Odour:</b>	Aromatic hydrocarbons
<b>Evaporation rate:</b>	Normal
<b>Application temperature:</b>	10°C-35°C
<b>Storage:</b>	(10°C – 20°C) and dry
