

PU FOAM GUN

SOLVENTS AND DEGREASERS

- Handy dose knob
- Ideal for large jobs
- High quality
- Can be used for all types of PU foams from Pro Part

PRODUCT DESCRIPTION:

PU FOAM GUN is a solid, well-functioning gun for processing polyurethane foams. The foam yield can be determined by means of the dose knob on the back of the gun. This prevents too much material from being lost through undosed use.

APPLICATIONS:

To be used for the pur foams from Pro Part:

- Universal Foam
- Flex Foam
- Fire Foam

INSTRUCTIONS:

When mounting the cans on the Pu Foam Gun it is important that the packaging is attached upright. (Do not turn the packaging upside down on the gun, but turn the gun on the upright packaging).

For the removal of uncured foam or cleaning the application gun, Pro Part International recommends the use of the Foam & Gun Cleaner. (Article number 2075)
