

THUNDER CLEAN

CLEANING AND CARE PRODUCTS

- **Very short exposure time**
- **Acid free**
- **Oil separator friendly**
- **Fast + effective cleaning**

PRODUCT DESCRIPTION :

THUNDER CLEAN is an acid-free wheel cleaner that cleans wheels quickly and safely. Thunder clean contains powerful surfactants and alkaline components.

APPLICATIONS :

Only use THUNDER CLEAN on rims. Thunder clean will remove street dirt and brake dust from hubcaps, steel and aluminium rims at all times.

NOTE: Specially treated/untreated or unpainted aluminium can be affected.

INSTRUCTIONS :

THUNDER CLEAN can be used pure and diluted. It is advisable to dilute thunder clean at all times provided that a rim is so coarse that pure use is necessary.

Dilution 1 to 5 depending on the pollution.

Spray thunder clean on the rim and let it work (30 to 60 seconds). Clean the rim with water.

Do not use in full sun or on hot rims.

When in doubt, always test a small piece to prevent major damage.

SPECIFICATIONS :

Basis:	Tensides - alkaline components
Content:	20L
Density (20 ° C):	1.25 kg / l
PH value:	14
