

SPOT PRIMER

PRIMERS-PAINTS AND COATINGS

- **Fast drying**
- **Excellent coverage and filling property**
- **Suitable for spotrepair**
- **Re-sprayable with all lacquer systems**

PRODUCT DESCRIPTION :

SPOT PRIMER is a high-quality, fast-drying primer for pre-treating treated and untreated surfaces of metal, and many plastics.

Fast drying. Very high coverage and filling. Good corrosion protection. Easy to sand, both wet and dry. To use as a welding primer.

APPLICATION :

Suitable primer as pre-treatment before coating with alkyd resin, nitro-cellulose, 1-K acrylate and 2-component acrylic lacquers.

INSTRUCTIONS :

Preparation: The surface must be clean, dry and free of grease. Remove loose old paint and rust, following by sanding the surface.

Bring the Aerosol to room temperature. Ideal processing temperature is 15 to 25 °C. Before use shake the Aerosol well and take a sample first.
